

## Funny Learning with Clouds (Activities Guide)

Norah Al Nasser

7/1/2012

## A Spoon Can Tell what are Clouds Made of?

### What do you need?

1 metal spoon per kid.

### What to do?

1. Pass the spoons to the kids and let them notice that spoons are cool.
2. Ask the kids to hold the back of the spoons close to their mouths and exhale.
3. Ask the kids to explain tiny cloud forming on the back of the spoons.

## Let's Make Clouds and Rain

### What do you need?

- Glass jar.
- Metal plate.
- Hot water.
- Ice cubes.
- Flashlight.

### What to do?

1. Fill the jar up to third with hot water.
2. Place the ice cubes in the metal plate.
3. Put the metal plate over the top of the jar.
4. Ask the kids to watch and explain what happens!

## Funny Water Cycle

### What do you need?

- A3 white paper.
- Pencil.
- Ruler.
- Color pencils.
- Colored papers.
- Cotton.
- Glue.
- Scissors (Use safety kinds for kids).

### What to do?

1. Discuss the water cycle with the kids.
2. Ask the kids to draw water cycle as funny story using materials above.

## Cloud Cover Simulation

### What do you need?

- White papers.
- Pencil.
- Ruler.
- Flannel cloth.
- Cardboard.
- Fixing strip.
- Glue or stapler.
- Scissors.

### What to do?

1. Cover the cardboard with flannel cloth and fix it using glue or stapler.
2. Cut the white papers to make small clouds then paste the fixing strip with them.
3. Ask the kids to simulate every kind of cloud cover by fixing the small clouds on the flannel board.

## Clouds Puzzle

### What do you need?

- Clouds pictures (Different types).
- Pencil.
- Ruler.
- Scalpel.
- Cardboard.
- Glue.
- Scissors.

### What to do?

1. Paste the pictures on the cardboard.
2. Cut the pictures in any puzzle shape.
3. Ask the kids to install the puzzle.
4. Ask the kids to specify and describe the type of the clouds.

## Clouds Cards

### What do you need?

- Clouds pictures (Different types) printed on thick paper and snipped as cards.
- Clouds names printed on thick paper and snipped as cards.
